AUTO-FLIPPING TAPE EDGE MACHINE

Product Characteristic

- The whole machine adopts servo system,more precise sewing and lower failure rate.
- When one side is finished, this machine can turn 90° automatically to sew another side. The sewing of corner is finish while turning.
- The sewing head can go up and down to adapt different thickness of mattresses and tilting of sewing head is adjustable.
- Ergonomic design: It has the function of mattress positioning,which eliminates manual push and pull operations, reduces labor intensity and can effectively solve the problem of mattress offset.
- Automatic flipping and turning mattress, effectively improve the production efficiency and mattress quality, Greatly reduce the labor intensity of the operator. It's a good choice for mattress mass production.

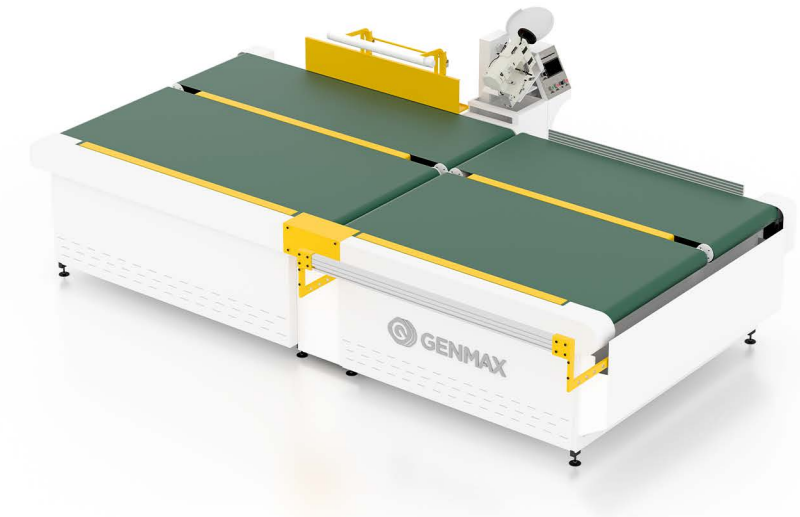

SEWING MACHINE

Technical Parameters

FB5	
Sewing Head Brand	SINGER 300U/CTEC/PFAFF
Mattress Thickness	50-480mm
Head Lifting Range	125-450mm
Table Size	3950x2000x900mm
Overall Dimension	4050x3000x1950mm
Power	3-Phase380V,50HZ
Total Power	3KW
Air Supply	06-0.8Mpa
Total Weight	1300kg
Capacity	12-18units/h

APPLICATION SCOPE

FB5H

OPTIONAL CHAIN STITCH SEWING HEAD

PFAFF-5626

SINGER-300U

CTEC 300U
